

Accessibility Statement for Swift-MR Client Portal and User Manual

This is an accessibility statement from Med AI Solutions for the provision of SwiftMR, developed by AIRS Medical.

Measures to support accessibility

Med AI Solutions takes the following measures to ensure the accessibility of Swift-MR:

- Include accessibility throughout our internal policies.
- Assign clear accessibility goals and responsibilities for the development of Swift-MR.
- Conducting accessibility reviews of new features and user interfaces.

Feedback

We welcome your feedback on the accessibility of Swift-MR. Please let us know if you encounter accessibility barriers when using Swift-MR:

- E-mail: Support@airsmmed.com or info@med-ai-solutions.com

Conformance status

The [Web Content Accessibility Guidelines \(WCAG\)](#) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA. Swift-MR is partially conformant with WCAG 2.1 level AA. Partially conformant means that some parts of the content do not fully conform to the accessibility standard.

Accessibility for our client portal and user manual has been independently reviewed to the WCAG2.1 Level AA standards. Our review confirmed partial compliance to level AA with development recommendations to achieve compliance.

Assessment approach

AIRS Medical assessed the accessibility of the Swift-MR Client portal and User Manual by the following approaches:

- External evaluation and review

Date

This statement was drafted on 2 October 2024 using the [W3C Accessibility Statement Generator Tool](#).
